MESSAGE FROM THE CHAIRMAN'S DESK

At the Threshold of a New Scholastic Year!

Dear Bosconians,

The beginning of a new academic journey is always a moment of great hope and anticipation. It is a fresh chapter — a time to dream boldly, plan wisely, and act purposefully. Whether you are returning after a refreshing break or stepping into our institution for the very first time, this is your moment to grow, to learn, and to shine.

Education is not merely about the subjects we study or the exams we pass — it is about shaping character, discovering purpose, and preparing to contribute meaningfully to the world around us. As we begin this new year, I invite each of you — students, teachers, staff, and parents — to commit to excellence not only in academics but also in values, relationships, and responsibilities.

There will be challenges along the way. There always are. But remember, each challenge is an opportunity in disguise — to stretch your limits, to build resilience, and to deepen your understanding of life and yourself.

Let this year be one marked by enthusiasm, hard work, mutual respect, and above all, a sincere desire to make a difference. Remember, Hard work may get us started, but perseverance is what ensures we reach the finish line. It is easy to begin a task with enthusiasm. The real test

comes when the journey gets long, the obstacles seem unending, and the initial motivation fades. That is when perseverance begins — the quiet, often unseen force that drives us to keep going when every part of us wants to stop.

Take the example of Thomas Edison, who failed thousands of times before inventing the light bulb. When asked about his repeated failures, he famously said, “I have not failed. I’ve just found 10,000 ways that won’t work.” What kept him going was not just hard work, but the resolve to continue long after the excitement had worn off and frustration had set in.

Perseverance is also the reason behind many everyday victories. It’s the student who studies late into the night after several failed attempts to understand a concept. It’s the teacher who keeps innovating in the classroom despite setbacks. It’s the athlete who trains through pain, or the scientist who tests one more hypothesis after dozens have failed. Each of them knows that the breakthrough comes not during the first wave of effort, but in the second, third, or even tenth — when quitting seems easier but continuing is wiser.

In a world that celebrates quick results and instant success, we must not forget that true success often demands deep patience and relentless effort. Perseverance means digging in even when the results aren’t visible, trusting the process, and believing in the value of one more step forward.

Let us build a learning community where curiosity is encouraged, creativity is celebrated, and character is formed with integrity.

To all our students : May this year be filled with new discoveries, meaningful friendships, and memorable experiences.

To our faculty and staff: Thank you for being the guiding lights who nurture, inspire, and walk alongside our learners.

To our parents : Your trust and partnership are invaluable — together, we form the foundation of our students’ success.

Let us begin this year with faith in our mission and confidence in our collective potential. The best is yet to come.

Rev. Prof. Sajan M. George sdb
Chairman, DBIT

MESSAGE FROM THE DIRECTOR'S DESK

Dear Students, Faculties, and Parents,

It gives me immense joy and pride to extend my heartfelt congratulations to the outgoing batch for their outstanding academic performance. Your achievements are a testament to your hard work, resilience, and dedication. You have not only brought laurels to yourselves but have also made our institution proud. As you move forward into new phases of your lives, I wish you continued success, fulfillment, and meaningful contributions to society. You have set a shining example for your juniors to follow, and I am confident that your journey ahead will be equally inspiring and impactful.

As we step into a new academic session, I extend a warm welcome to all our continuing students. May this year be filled with enthusiasm, exploration, and growth. A very special welcome to the newly admitted students of BBA, BCA, and B.Com (Hons.). We are delighted to have you as part of our vibrant academic community. I also take great pride in welcoming the first-ever batches of MBA and MCA students to our institution—your presence marks a significant milestone in our growth story.

I would also like to take this opportunity to congratulate the Newsletter Team for their continued efforts and unwavering commitment to excellence. Your creativity, consistency, and dedication in capturing the spirit and accomplishments of our institution are truly commendable.

Wishing everyone a successful, enriching, and joyful year ahead!

Warm Regards,

Prof. Vikas Rao Vadi
Director, DBIT

MESSAGE FROM THE VICE PRINCIPAL

Dear Readers,

It gives me immense pleasure to pen a few words for this edition of our college magazine. A college magazine is not merely a publication, but a reflection of the creativity, intellect, and dynamism of our students and faculty. It captures the vibrant life of the campus and showcases the collective achievements, ideas, and aspirations of our academic community.

In today's rapidly evolving world, education is no longer confined to classrooms. Through activities, events, projects, and publications like this, students gain opportunities to express themselves, to think critically, and to contribute meaningfully to the academic and cultural fabric of the institution.

I commend the efforts of the editorial team, the contributors, and all those who have worked tirelessly to bring out this magazine. Your dedication and enthusiasm are truly inspiring.

Let this magazine be a source of inspiration and pride for all, and may it continue to motivate many more students to explore their talents and potential.

Wishing everyone continued success and growth.

Warm regards,
Prof. Shalu Tandon
Vice Principal, DBIT

MESSAGE FROM THE CHIEF EDITOR

*Dear Bosconians,
Greetings!*

With immense pleasure, I present to you the latest edition of our quarterly college newsletter **Bosco Darpan**. As our institution continues to grow and evolve, it is heartening to see a noticeable rise in the number and scale of academic, co-curricular, and sports activities being organized. What is even more delightful is the increasing participation of our students, which reflects their enthusiasm and desire to engage beyond the classroom.

College life is a unique and precious phase. It offers more than just lessons from textbooks—it provides a space to explore passions, express creativity, and build a well-rounded personality. I sincerely encourage all the students to take active part in the events and initiatives taking place across the campus. Here, you have the chance to learn, lead, and enjoy to the fullest—opportunities that may not come again once you step out into the professional world.

As the saying goes,

“Tell me and I forget, teach me and I may remember, involve me and I learn.”

– Benjamin Franklin

Let this newsletter be a celebration of your involvement and a testament to your growth. We hope it inspires more of you to step forward, participate wholeheartedly, and make your college journey truly memorable.

Warm regards,

Dr. Ruchi Sawhney
Chief Editor
Associate Professor, DBIT

SENTIENT SHIELDS: THE RISE OF AI-POWERED CYBER DEFENCE IN A QUANTUM WORLD

The era of firewalls and antivirus software is no longer relevant in cybersecurity. These days, defensive systems are needed to think, learn, and change in tandem with the threats they are designed to counter. The need for equally clever defences has never been greater as cyberattacks get more sophisticated and self-governing. This is a revolution in cybersecurity, and not merely a change.

Cybersecurity as a Living System

Forget the castle-and-moat analogy. Cybersecurity today is more like a living organism—adaptive, interconnected, and self-aware. It evolves in real time, guided by data, artificial intelligence, and predictive modelling. Innovations now allow systems to pre-empt attacks before they happen, quarantine threats without human intervention, and even analyse attacker intent.

Game-Changing Innovations in Cyber Defense

- Security algorithms that mimic the human brain to identify trends and abnormalities are known as neuro-inspired algorithms
- **Synthetic Cyber Environments:** Building virtual battlefields to test systems against incredibly realistic assaults. Similar to our human immune system, digital immune systems use behavioral analytics and machine learning to identify and eliminate threats.
- **AI Cyber Co-Pilots** are embedded AI assistants who work with IT teams to automate countermeasures, examine logs, and recommend repairs.

Cybersecurity's Quantum Leap

- **Post-Quantum Cryptography:** Preparing for a future where quantum computers can crack today's encryption in minutes.
- **Quantum Key Distribution (QKD):** Harnessing quantum physics to secure data transmission with unbreakable encryption.

Emerging Cyber Frontiers

- **Augmented Reality (AR) Threat Visualization:** Allowing security analysts to “see” threats in immersive environments.
- **Predictive Governance Engines:** AI systems that proactively enforce regulatory compliance across hybrid environments.
- **Cybersecurity Mesh Architecture (CSMA):** A distributed approach to enforcing security across multi-cloud and remote work setups.

Real-World Pioneers

- **AI-Secured Satellites:** Space agencies are using autonomous cybersecurity to protect satellite constellations from nation-state hackers.
- **Smart Grids with Cyber Reflexes:** Power utilities have adopted digital twins and self-healing networks to stop outages before they begin.
- **Voiceprint Security:** Some financial institutions now use vocal biometrics as a defense against deepfake fraud.

Challenges in the New Age

- **AI vs AI:** Cybercriminals now use generative AI to create advanced phishing campaigns and polymorphic malware.
- **Data Ethics and Sovereignty:** With great data comes great responsibility. Ensuring ethical use of AI in security is a must.
- **Talent Bottleneck:** There's a global shortage of cyber defenders who can think creatively and leverage these advanced tools.

The Future: Sentient Security Ecosystems

We're moving toward **sentient security**—systems that understand context, anticipate user behaviour, and co-exist with human teams as intelligent allies. Think of them as guardians that never sleep, evolve with each attack, and grow smarter by the second.

Final Thoughts

The age of passive protection is over. In a world where threats are autonomous, distributed, and invisible, cybersecurity must be proactive, predictive, and profoundly intelligent. The revolution has begun—and it's not just about protecting data. It's about redefining trust in the digital age.

Upskilling for the Digital Economy: Essential Skills for 2030

A guest lecture started on 28 January 2025, at 11:00 AM and ended at Noon. The speaker of this lecture was Ms. Neha Sabharwal. The speaker mentioned key points like digital economy transformation, key trends, and soft skills for the digital economy and also told about how to upskill effectively. Then she went on to clear our doubts and provided new knowledge. The guest lecture offers opportunities to gain insight from experts in the field, learn about industry trends, and hear real-world applications of skills.

Guest lectures often share valuable experience and advice that can help one to improve own professional development, network with others in the fields, and gain a deeper understanding of skills in the digital world.

The digital economy is an economy that is primarily based on digital technologies, including the Internet, digital platforms, and data-driven innovations. It was very helpful for career development in the digital world.

BBA (2023-2026)

A Workshop on “Master Your Mind”

On January 29, 2025, Don Bosco Institute of Technology (DBIT), Delhi, organized an insightful workshop titled “Master Your Mind”, aimed to equip students with tools to harness the power of positive thinking and emotional resilience. Under the guidance of Rev. Prof. Sajan M. George, Chairman of DBIT, and Prof. (Dr.) Vikas Rao Vadi, Director of DBIT, the workshop focused on enhancing students' mental well-being, academic performance, and personal growth.

The session featured two distinguished speakers. **Ms. Geetanjali Papreja, Founder & CEO of Geetanjali School of Skill Development**, a renowned Soft Skills Trainer, NLP Master Coach, and Emotional Intelligence Practitioner, shared valuable insights on developing a growth mindset. **Mr. Venkatesh Balan S., COO of NLP Coaching Academy & Geetanjali School of Skill Development**, a certified NLP trainer and Professional Certified Coach, provided practical strategies for strengthening emotional resilience.

Additionally, Ms. Soma, a dedicated educator, academic, and prolific writer, played a key coordinating role in the event. With extensive teaching experience and advanced degrees in History and Education, she is deeply committed to inclusive education and empowering learners. The event was supported by Ms. Anubhuti Ityalam, Ms. Jatinder Kaur, and the entire faculty, ensuring the workshop's smooth execution. DBIT's Vice Principal, Dr. Shalu Tandon, warmly welcomed the speakers, presenting Ms. Papreja with a planter as a token of appreciation, while Mr. Amandeep Singh, Head of the Computer Science Department, did the same for Mr. Balan.

Throughout the workshop, students engaged in techniques such as positive self-talk, deep breathing for emotional regulation, and reframing negative thoughts. By the end of the session, they were equipped with practical tools to manage their emotions and thoughts effectively, boosting resilience and paving the way for academic and personal success. The event concluded with a heartfelt vote of thanks to the speakers, faculty members, and student volunteers, encouraging students to apply the techniques learned for continuous self-improvement and personal growth.

BCA (2024-2028)

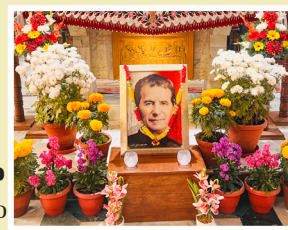

DON BOSCO Feast 2025

Celebrating the Feast of Our Father and Founder - Don Bosco

Every year, on 31 January, globally Salesians come together to celebrate the feast of St. John Bosco, fondly known as Don Bosco (Father Bosco). This special day honors the extraordinary legacy and selfless dedication of St. John Bosco, who devoted his life to the education, guidance, and upliftment of young people, especially those in need. Across the world, individuals and institutions associated with the Don Bosco name observe this day with deep reverence, immense joy, and heartfelt gratitude for his enduring impact. On January 31, 2025, Don Bosco Feast was joyously celebrated at Don Bosco Institute of Technology (DBIT), Delhi. Although it was officially a holiday for the college, the spirit of Don Bosco inspired faculty members, non-teaching staff, and a large number of students to voluntarily gather and participate in the day's celebrations. Their presence reflected a strong sense of community and shared values rooted in the teachings of the saint.

The day began with a solemn and spiritually enriching Holy Eucharist celebrated in the college chapel. The service was led by Rev. Prof. Sajjan M. George sdb, the esteemed Rector of the campus. In the message, he emphasized on the need to follow preventive system to shape the character of the youngsters to make them better individuals and citizens of our esteemed country. Attendees actively participated in meaningful ways—through prayer, song, and reflection—creating a deeply moving atmosphere of faith and unity. Following the mass, everyone assembled in the college hall to enjoy a delicious breakfast that was lovingly prepared and served to all.

The meal provided an opportunity for fellowship and conversation, further strengthening the bonds among the members of Don Bosco family. As the celebrations came to an end, participants exchanged warm greetings and heartfelt wishes, departing with a renewed sense of inspiration. They carried home with them not only fond memories of the day but also the timeless values that St. John Bosco championed—love, kindness, education, and unwavering dedication to the youth.

Dr. Ruchi Sawhney
Associate Prof, DBIT

EMPOWERING FUTURE ANALYSTS : DATA ANALYTICS WEBINAR FOR BCA STUDENTS

The Department of Computer Applications at Don Bosco Institute of Technology (DBIT), Delhi, organized an insightful Webinar on Data Analytics exclusively for BCA students. The session was designed to introduce students to the evolving landscape of data-driven decision-making and the promising career opportunities in the field of analytics.

The webinar featured an industry expert who provided an in-depth look into the core concepts of data analytics, including descriptive, diagnostic, predictive, and prescriptive approaches. Students across all years of the BCA program attended the session with great enthusiasm, eager to understand the real-

world relevance of data by logging in to the webinar from their own devices while sitting in their classrooms, creating a communal experience of knowledge. One of the primary highlights of the webinar was the focus on career prospects in data analytics. The webinar was conducted by Ms. Anshu, a trainer from WS Cube Tech Pvt. Ltd. outlined various job roles such as Data Analyst, Business Analyst, Data Scientist, Data Engineer, and Visualization Specialist, offering a clear roadmap for students aspiring to enter this field. Additionally, the importance of certifications in Python, SQL, Excel, Power BI, and Tableau was emphasized, along with suggestions for online platforms where students could begin their upskilling journey.

The session also included demonstrations and case studies showcasing how top industries like healthcare, e-commerce, finance, and logistics use data analytics to drive innovation and growth. Students were intrigued to learn how even basic data insights could lead to impactful business decisions.

To conclude the session, an engaging Q&A session was conducted, where students interacted with the speaker to gain personalized guidance on how to begin their careers in analytics. Queries about internships, skill development, and the future scope of AI and machine learning were addressed with practical advice.

The webinar not only enhanced students' understanding of analytics but also inspired many to pursue it as a viable and rewarding career path, making it a significant step in DBIT's continued efforts to shape industry-ready professionals.

Japleen Dang
BCA (Batch 2023-26)

A Workshop on Campus to Corporate – Bridging the Gap

On February 6, 2025, Don Bosco Institute of Technology (DBIT), Delhi hosted an insightful workshop titled “Campus to Corporate,” conducted by Ms. Aisha Ghani, a Certified Happiness Coach. The session was designed to help final-year students from BBA, BCA, and B.Com (Hons.) programs to have a smooth transition from student life to the professional world by bridging the gap between education and workplace expectations.

The workshop emphasized on the essential skills such as confidence, communication, and leadership, with a special focus on Emotional Intelligence (EI) as a key driver of career success. Rather than relying on traditional lectures, Ms. Aisha adopted an interactive approach, encouraging discussions to actively engage students.

A striking revelation shared during the workshop was that only 5% of students land in their dream jobs. To improve these odds, Ms. Aisha highlighted the importance of developing strong communication skills. In a bold move to challenge students, she randomly invited participants to speak about themselves on the stage, unveiling three distinct reactions: excitement, nervousness, and fear. The activity aimed to increase students’ self-awareness and help them conquer their anxieties.

One of the highlights of the session was the introduction of the Venn diagram method for career selection. This technique guides students in identifying potential career paths by considering four elements: what they love, what the world needs, what they can get paid for, and what they are good at. Additionally, the common fear of public speaking, known as glossophobia, was addressed with practical solutions like Neuro-Linguistic Programming (NLP) and Systematic Desensitization, both of which help reduce anxiety through gradual exposure.

The workshop also delved into skill-building, interview preparation, and career adaptability. A captivating concept discussed was “Where is the Tiger Hiding?” — a metaphor for adapting to unexpected changes in the professional landscape. Furthermore, students were introduced to the Recruitment Competency Framework, which illustrates how companies assess candidates based on skills, leadership potential, and cultural fit.

The session concluded with the announcement of a mentorship program aimed at helping students build confidence and prepare for their careers, marking a promising step forward for those ready to embrace the corporate world.

Sambhav Chugh
BCA (2022-2025)

In Remembrance: Don Bosco Institute of Technology Mourns Pahalgam Attack Victims

On 23rd April 2025, Don Bosco Institute of Technology held a solemn condolence meet at 10:00 AM to honour the victims of the Pahalgam attack that occurred on 22nd April. The horrific incident, which claimed several innocent lives, left the nation in deep mourning.

The gathering was attended by Chairman Rev. Prof. Sajan M. George, Director Prof. (Dr.) Vikas Rao Vadi, Vice Principal Dr. Shalu Tandon, faculty members, and students. The event began with a one-minute silence observed in memory of the deceased, creating a solemn and respectful atmosphere.

Following the silence, the Chairman sir and Director sir addressed the assembly. Both speakers condemned the violence, expressed heartfelt condolences, and emphasized the importance of unity, peace, and resilience in times of national tragedy. The event concluded with emotional reflections by members of the college community, reaffirming their collective commitment to uphold peace and stand against all forms of violence.

Sania Lalwani
BBA (2023-2026)

A Visit to the Atal Incubation Centre at GGSIPU:

A Glimpse Into Innovation and Entrepreneurship

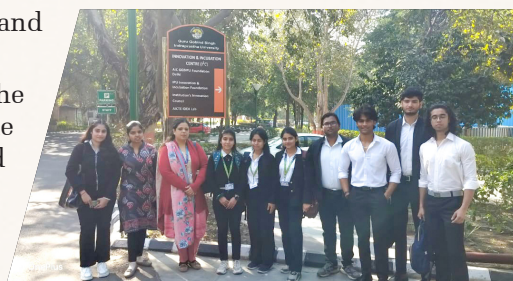

On 13 February 2025, the students of BBA, BCA, and B.Com (Hons.) from Don Bosco Institute of Technology, Delhi, had the opportunity to visit the prestigious Incubation Centre at Guru Gobind Singh Indraprastha University (GGSIPU), Dwarka main campus. The visit was a part of an academic field trip aimed at providing students with real-world insights into the world of startups and entrepreneurship.

The visit began with a warm welcome at the Atal Incubation Centre (AIC), where all the students were greeted by a knowledgeable and engaging speaker, who walked them through the fundamentals of what an incubation centre is and how it plays a vital role in nurturing innovative ideas into successful business ventures. They were introduced to the concept of the Atal Incubation Centre, an initiative under the Atal Innovation Mission by the Government of India, aimed at promoting a culture of entrepreneurship and innovation. They learned about the number of such centres operating in Delhi, and the kind of government support and funding these centres receive to assist budding entrepreneurs. The students also learned about the various programs the centre runs, including Sandbox, Aspire, Spark, and Ignite. Each program is tailored to support startups at different stages of their journey—from ideation to scaling up.

The session wasn't just informative, but also very interactive. The speaker engaged in a friendly conversation with all the students, encouraged them to ask questions, and addressed every query with great patience and clarity. This made the session not only insightful but also very enjoyable.

Following the talk, the students were taken on a tour of the incubation centre, where they got a chance to see the workspaces of various startups. Witnessing the real-life working environment of emerging businesses was the most exciting part of the session and was truly enlightening. It gave the students a peek into the entrepreneurial spirit that drives innovation and growth in today's world.

Overall, the visit to the Atal Incubation Centre was an enriching experience. It not only broadened our understanding of entrepreneurship and innovation but also inspired many of us to think beyond conventional career paths and explore the exciting world of startups.

Tanisha Das
BCA (2023-2026)

The Don Bosco Institute of Technology, Delhi, hosted a remarkable job fair on 01 February 2025 that brought together over **31 companies and 746 students**, including those from various universities such as Indraprastha University, University of Delhi, and Jamia Millia Islamia. This event, aptly named “Crossing the Frontiers”, was a resounding success, providing an invaluable platform for students to showcase their skills and for companies to connect with a diverse pool of talented individuals.

The job fair commenced with the students registering at different company desks, followed by an inaugural session. It began in the auditorium with the ceremonial lighting of the lamp, signifying a positive start to the day. To commence the event, the Rev. Prof. Sajan M. George, Chairman DBIT, graciously welcomed distinguished HRs from renowned companies and appreciated them for their valuable presence. Furthermore, he conveyed his best wishes to all the students, encouraging them to seize the opportunities presented and excel in their career pursuits. Following his address, Prof. (Dr.) Vikas Rao Vadi extended a warm welcome to all HR professionals and student participants attending our college’s inaugural job fair. He emphasized on the significance of this event and encouraged everyone to make use of the opportunities on offer. Concluding his speech, he conveyed his best wishes to all participants for a successful and enriching experience. The event also included a short yet meaningful introduction to Don Bosco Institute of Technology, Delhi, showcasing its core values, vision, and dedication to nurturing future professionals by Mr. Amandeep Singh. All the HR professionals and esteemed dignitaries were honored with commemorative mementos as a token of appreciation for their presence. The inaugural ceremony concluded on a patriotic note with the collective singing of the National Anthem. This marked the end of a memorable and inspiring inaugural ceremony of the event.

The companies then proceeded to their designated rooms to begin the interview and hiring process, with students eagerly lining up to seize the opportunity to showcase their abilities and land their dream jobs. The recruitment process typically involves multiple stages, such as group discussions, personal interviews, technical interviews, and online assessments. Throughout the day, students engaged in interviews and hiring processes, and some companies even took the process a step further by inviting selected candidates to their company offices for additional rounds, ultimately leading to successful placements and a mutually beneficial outcome for the students, the companies, and the college management. A total of 50 students benefited from the job fair,

CROSSING THE FRONTIERS: DBIT JOB FAIR 2025

gaining valuable exposure to potential employers and enhancing their career prospects.

The energy and excitement that permeated the job fair were palpable, as both students and companies navigated the dynamic landscape of the job market, forging connections, exchanging insights, and ultimately, realizing their aspirations. As the curtain fell on this year’s job fair, we eagerly anticipate its return in the coming year, brimming with even more prospects and a future filled with promise.

Kirpa Bajaj
BCA (2022-2025)

INAUGURAL SESSION OF VALUE-ADDED COURSE FOR BBA & B. COM (H.) STUDENTS

The inaugural session of VAC was organized in the auditorium for the I-Year BBA and B.Com (Honours) students on 3 February 2025. Value-added courses are crucial for enhancing employability and career prospects by providing practical skills and knowledge that complement traditional academic programs, bridging the gap between theory and practice. Don Bosco Institute of Technology, Delhi, has collaborated with Finx whose finance experts will brief students on topics that will give them a competitive edge over other students. The course is for three months and is twice a week. Students will prepare a file report and sit for viva on successful completion of the VAC course. The industry expert who briefed students about financial market knowledge was Mr. Manish Srivastava. He along with his team will teach students about various software and mechanisms which will help them become a pro at investment in the financial market and understand all related terms.

Kanishka
BBA (2024-2028)

A Guest Lecture by the Delhi Productivity Council on Ideas to Impact and Protect Intellectual Property for Competitive Startups

On 12 February 2025, DBIT in association with the Delhi Productivity Council organised a guest lecture on 'Ideas to Impact and Protect Intellectual Property for Competitive Startups' for BCOM fourth-semester students. The speaker of the lecture was Ms. Stuti Wahal, Sr. Lecturer of Delhi Law School. Learning objectives of the workshop included understanding the fundamental concepts of Intellectual Property Rights (IPR) and their significance, exploring various types of IP, including patents, trademarks, copyrights, and trade secrets, learning about the legal frameworks and processes involved in securing IP protection, identifying strategies for startups to leverage IP for business growth and competitive advantage and analyzing real-world examples of startups successfully utilizing IP protection.

The session proved to be highly informative and engaging, equipping students with essential knowledge on protecting their innovations. Attendees gained valuable insights into the importance of securing IP for business success and the steps involved in the process. The lecture also encouraged aspiring entrepreneurs to consider IP protection as a crucial element in their startup journey.

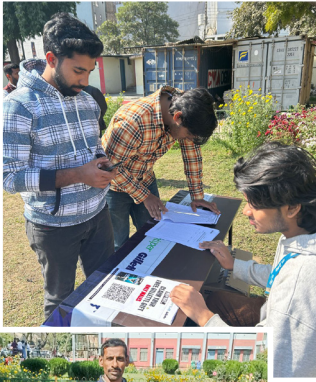

The guest lecture on 'From Ideas to Impact: Protecting Intellectual Property for Competitive Startups' was a resounding success, leaving students inspired and well-informed about the significance of intellectual property. The event highlighted the importance of innovation protection in today's competitive business landscape and provided a strong foundation for students to integrate IP strategies into their entrepreneurial endeavors.

Rakhi Karmakar
B.Com (Hons.) (2023-2026)

Workshop on Personal Grooming by Procter and Gamble

The first-year students of BBA, BCA & B. Com (Honours) courses attended a workshop organized by P&G on the importance of personal grooming. Personal grooming workshops are important for boosting self-confidence, enhancing self-esteem, and improving overall personality, social skills, and professional presentation. They help individuals understand the role of grooming and etiquette in personal and professional life, leading to better communication and career advancement. The students were briefed about personal grooming and its importance in projecting competence, confidence, and respect, which can positively impact how others perceive us and our abilities, ultimately boosting our career prospects. The speaker deliberated on the following topics in detail, the first impression matters, demonstrating respect, boosting confidence, enhancing professionalism, improving social interactions, and career advancement.

P&G representatives gave away razors to male and female students and sanitary napkins to female students as a part of their sampling activity.

Love Ahuja
BBA (2024-2028)

Visit to Yashobhoomi Dwarka for India Energy Week

On 14 February 2025, the first-year students of BBA, BCA & B. Com (Honours) courses went for a visit to Yashobhoomi Dwarka for India Energy Week. The students witnessed the contributions of all big Indian brands namely HP, IOCL, BP, Vedanta, etc towards a greener future and also how different countries have partnered in contributing towards SDGs concerning conservation of resources. The concluding ceremony was graced by the presence of India's Union Minister for Petroleum and Natural Gas, Shri Hardeep Singh Puri who inaugurated the journal and gave away prizes to esteemed b-school students namely ISM Dhanbad, IIT Delhi for contributing to well-researched plans towards a better future.

The students also got a platform to network with students from different colleges. Finally, the students got a chance to visit an exhibition put on by all the energy players. Great knowledge and practical exposure were what the students encountered.

Johnson Control Orientation Program for BBA and B. Com (Hons.)

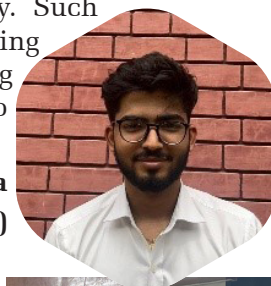

On February 17, 2025, Don Bosco Institute of Technology (DBIT), Delhi, successfully hosted a Seminar Cum Orientation Programme in collaboration with Johnson Control of India Pvt Ltd. The event, held at the DBIT Auditorium, brought together enthusiastic BBA and B. Com (Hons.) students (Batch 2023-26) for an insightful session focused on industry expectations, career prospects, and skill development.

The seminar featured distinguished speakers, including Dr. Sajan M George, Chairman of DBIT, along with key officials from Johnson Control Pvt Ltd, Gurugram, Ms. Neha Grover Dargan (Senior General Manager, Head HR) and Mr Piyush Kukreja (Senior HR Manager). The sessions provided students with valuable insights into corporate culture, workplace dynamics, and the skills required to thrive in a competitive business environment. The speakers also discussed emerging industry trends and the growing demand for professionals with technical and managerial expertise. Students actively participated in interactive discussions and Q&A sessions, gaining clarity on various career paths and the importance of aligning academic learning with industry expectations. Many attendees expressed appreciation for the opportunity to engage with experienced professionals and gain practical knowledge beyond the classroom setting.

The seminar marked another step in DBIT's commitment to bridging the gap between academia and industry, fostering strong collaborations that enhance student learning and employability. Such initiatives continue to play a crucial role in preparing students for their professional journeys, equipping them with the confidence and skills needed to succeed in the corporate world.

SPARDHA' 25:

An Inter-College Sports Tournament

The Don Bosco Institute of Technology (DBIT), Delhi, hosted its II Annual Inter College Sports Tournament, SPARDHA'25, from February 28 to March 01, 2025. Over **1,500 students from 68 colleges and 11 universities across Delhi-NCR** participated in this highly anticipated event.

SPARDHA'25 featured a diverse range of sports, like, football, basketball, volleyball, kabaddi, and more. The tournament was meticulously planned and executed, ensuring smooth coordination and fair play. Participants displayed exceptional skill and determination, making the event a thrilling experience for the audience.

Key Highlights

Esteemed dignitaries, including Rev. Prof. (Dr.) Sajan M. George and Prof. (Dr.) Vikas Rao Vadi graced the grand inauguration ceremony

- The closing ceremony and prize distribution saw winners being felicitated with trophies, medals, and certificates.

The Opening ceremony started at 9:00 AM, on 28 February, 2025, and was graced by our esteemed Chief Guest, Rev. Dr. Sajan M George. DBIT Panther club members were honored to be the torchbearers. Soon after, SPARDHA's declaration was given, and all the events commenced. A total of 26 sports events were conducted, showcasing exceptional sportsmanship and organization.

Grand Inauguration

The event commenced with a grand inauguration ceremony, featuring an inspiring speech by Rev. Dr. Sajan M George. This was followed by the torch lighting ceremony and the release of tri-color balloons.

Pledge Ceremony

A notable highlight of the opening ceremony was the pledge taken by all participants, recited by our respected Director, Dr. Vikas Rao Vadi. The pledge was followed by all participants, coordinators, and other event members with full enthusiasm, setting the tone for a spirit of fair play and sportsmanship.

Fierce Competitions

The matches and contests witnessed intense competition, with players displaying exceptional skill and determination.

Closing Ceremony & Prize Distribution:

The event concluded with a grand closing ceremony, where winners were felicitated with trophies, medals, and certificates. The overall championship was bagged by Don Bosco Institute of Technology, Delhi, by scoring the highest number of points. We extend our heartfelt gratitude to Rev. Dr. Sajan M. George and Dr. Vikas Rao Vadi for their unwavering support, visionary guidance, and inspiring leadership, which played a pivotal role in the grand success of this event. Their constant encouragement and commitment to excellence have been truly invaluable. We extend our gratitude to our sponsors, student coordinator, volunteers, faculty members, and the organizing committee for their relentless efforts in making SPARDHA'25 a grand success. Special thanks to the participants for their enthusiastic involvement and the audience for their unwavering support.

Don Bosco Institute of Technology, Delhi, emerged as the overall champion, scoring the highest weightage score. The event was a grand success, thanks to the relentless efforts of the organizing committee, faculty members, and student volunteers.

SPARDHA'25 was a testament to the power of sports in bringing people together and promoting teamwork, sportsmanship, and physical fitness. The event was a huge success, and DBIT can be proud of hosting such a well-organized and engaging tournament.

IT Rang' 25

A Fusion of Culture & Technology

ITRANG'25, the much-awaited cultural and IT fest, was successfully held on March 21 & 22 2025, bringing together students from various colleges, with creativity, innovation, and competition in 31 different events. **The total number of Universities that participated was 15, the Colleges that participated were 65 and the total Students who participated was 2200.** The fest proved to be a spectacular blend of artistic expression and technological brilliance, fostering an environment of learning, networking, and fun.

A Cultural Extravaganza

The cultural segment of ITRANG'25 showcased the incredible talents of students across multiple domains:

- **Dance Performances:** From classical to Footloose, energetic and mesmerizing performances set the stage on fire.
- **Music Competitions:** Bands and solo artists captivated the audience with their soulful renditions.
- **Fine Arts:** Budding artists displayed their creativity through live painting, clay modeling, and digital art competitions.
- **Drama & Theatre:** Engaging skits and theatrical acts highlighted social issues and entertained the crowd.

Tech Meets Talent: The IT Events

The IT segment of ITRANG'25 provided a platform for tech enthusiasts to exhibit their skills in various challenging competitions:

- **Hackathon:** Young innovators worked tirelessly to develop cutting-edge solutions in a time-bound coding marathon.
- **IT Debate:** Participants engaged in thought-provoking discussions on trending topics in the world of technology.
- **Gaming Arena:** Esports enthusiasts competed in

an intense gaming battle, making it one of the fest's highlights.

- **Ideathon:** The Ideathon emerged as a dynamic platform where creativity met problem-solving, challenging students to reimagine and revolutionize solutions for real-world issues.

ITRANG'25 wasn't just about cultural performances and tech competitions—it also featured a dynamic array of stalls and games that added an extra layer of fun and engagement to the fest.

It was more than just a competition—it was a festival of ideas, teamwork, and celebration.

The enthusiastic participation, electrifying performances, and intense tech challenges made it a memorable event for all attendees. With valuable networking opportunities, insightful workshops, and thrilling contests, the fest left a lasting impact on everyone who was part of it. ITRANG'25 came to a close, it set the stage for even bigger and better editions in the future. The fusion of culture and technology truly made this fest a grand success!

Expert Lecture on the Process of Innovation Development, Technology Readiness Level, Commercialization of Lab Technologies and Tech Transfer

On February 25, 2025, an online expert lecture titled “Process of Innovation Development, Technology Readiness Level (TRL), and Commercialization of Lab Technologies & Tech-Transfer” was conducted by Mr. Anurag Singh, Founder of Think Fin. It was aimed at BBA and B. Com (Hons.) students, and the session covered key themes like Innovation Development, TRLs, and Commercialization Strategies.

Mr. Singh explained step-by-step the innovation process and the nine TRL stages, emphasizing their role in assessing technology maturity. He highlighted the challenges in converting lab research into market-ready products, stressing the importance of IP rights, funding, and industry collaboration. The real-world case studies enriched the discussion.

The lecture also encouraged an entrepreneurial mindset, inspiring students to explore startup opportunities. With 150 attendees, the session successfully bridged academic knowledge with practical industry insights, fostering a culture of innovation. Faculty coordinators Dr. Pramod Kr. Nayak and Ms. Tanya Jolly commented on the engaging discussion, which left participants motivated to leverage technology for economic and societal impact.

Annual Cultural Fest of GGSIPU : Anugoonj'25

Anugoonj, an annual cultural fest of GGSIPU, is a grand celebration of talent, creativity, and cultural diversity. This much-anticipated event brings together students from various colleges affiliated with the university, offering a platform to showcase their artistic skills in music, dance, drama, and literature. Colleges across the university compete in the zonal rounds, and the successful ones, battle it out at the main event for the coveted prizes. This year, Don Bosco Institute of Technology, Delhi performed exceptionally well in the prelims, securing spots in multiple competitions. It was a moment of pride and joy for all of us as we prepared to represent our institutions. With determination and enthusiasm, our college students performed in various events, from energetic dance routines to thought-provoking theatric performances. The highlight of our participation was our victory in the Western Solo Singing category. Master Ebin Joseph of B.Com (H) (2022-2025) made us proud with his victory. The experience of participating was filled with hard work, rehearsals, and team spirit, and making it to the fest was a testament to our dedication.

Anugoonj is more than just a fest—it is an emotion that binds students through their love for art and culture. It provides a stage to express, compete, and most importantly, celebrate the diversity of talents. As our college continues to participate in such cultural festivals, we take pride in carrying forward our legacy of excellence, creativity, and teamwork. The memories will stay with us forever, inspiring us to aim higher in the coming years!

Installation Ceremony: A Step Towards Leadership and Growth

The Installation Celebration of various types of leaders was held on 05.03.2025 at Don Bosco Institute of Technology, Delhi, to formally induct the elected student representatives into their respective roles. This ceremony is a testament to the democratic values and principles that our institution holds, and we are excited to witness the inauguration of our new student council. The event was graced by the presence of Rev. Dr. Sajan M. George, Dr. Vikas Rao Vadi, Heads of Departments (HoDs), Faculty Members, and Students.

The event was filled with enthusiasm, energy, the promise of new beginnings, and a feeling of pride. This annual ceremony marks a significant moment in the academic calendar, not only for the newly appointed leaders of different clubs but also for the entire college community. The event was held in the college auditorium, which was brimming with excited students, faculty members, and the newly elected office-bearers of the student clubs. It gave us motivation and a sense of responsibility to perform our duties and give our best to the college and also to bring out the best in students.

All the Club Heads gave a brief presentation about the work done by their clubs followed by the installation of the President, Vice President, and Secretary of their Clubs who were honored with badges by Rev. Dr. Sajan M. George, Dr. Vikas Rao Vadi, and the respective faculty heads of the respective clubs. This gesture symbolized their responsibility in leading their respective clubs and organizing activities throughout the academic year. The elected Class Representatives and Academic Representatives received their badges from, Rev. Dr. Sajan M. George, Dr. Vikas Rao Vadi, respective Heads of Departments (HoDs), and Class Coordinators. Their role in bridging communication between students and faculty was emphasized, highlighting their commitment to academic excellence and student welfare.

The installation ceremony serves as a formal occasion to recognize and celebrate the efforts of students who have been selected to lead various clubs within the college. These clubs often play a crucial role in shaping students' academic, social, and professional lives. By being part of a club, students gain valuable experience in teamwork, event management, public speaking, and problem-solving. Looking forward to more such events filled with achievements and joy as well.

Entrepreneurship Awareness Workshop Inspires Students at Don Bosco Institute of Technology, Delhi

A dynamic workshop on “How to Plan for Start-Up and Legal & Ethical Steps” was held on 10 March 2025 at Don Bosco Institute of Technology, Delhi, empowering 120 students with entrepreneurial insights. Organized under the MSME's Entrepreneurship Awareness Programme (EAP), the event featured industry experts and government officials.

Chief Guest Sh. Ashok Sharan (MD, Tribal India TV) highlighted on the topic, ‘creativity and branding in business success’. Sh. Sunil Kumar (MSME-DFO) and Dr. B.P. Singh (IEDS) elaborated on government schemes and MSME policies. Ms. Madhu Malti (NSIC) explained funding opportunities, while Mr. Ruchin Khare (Canara Bank) discussed startup financing.

The session equipped students with knowledge of funding sources, financial planning, and legal steps for startups. Interactive discussions fostered mentorship, inspiring attendees to explore entrepreneurship. The Chief Guest & other senior staff were felicitated with a planter. The event successfully met its objective, ‘encouraging innovation and self-employment among youth’.

TALK SHOW ON International Women's Day Celebration

Every year, on March 08, the world unites to celebrate International Women's Day, dedicated to recognizing the achievements, contributions, and resilience of women worldwide. On this occasion, a Talk Show was hosted in Don Bosco Institute of Technology, Delhi, to honour this special day. Various viewpoints and dimensions were stated on different setbacks that affect women daily and are ingrained in our society. Numerous issues were raised and discussed, such as openness about menstruation, women supporting women, breaking stereotypes on gender roles, and women leading in today's generation. Precious insights as well as setbacks were discussed profusely between the students, giving a whole lot to think about these important yet less talked about themes. The norms and taboos created by society revolving around women and the social stigma which is imposed on women were bashed and concept of normalising

and accepting various overlooked facades of being women were presented as a women is a human at first then a gender thus a human exercise every right to live without any taboo revolving around them. Students put forward that it's high time for us now to be more aware of such situations.

The audience also acknowledged this deep, ingrown culture of shame and silence around women. Various people from the audience also gave their views and what thought process they have after all the discussions on these themes. Together, everybody saw the contribution of women after ages of oppression and how society is gradually becoming more and more accepting of the facts about women that were once taboo. At the end, the ceremony was concluded with words from the audience and how the discussion gave them a whole new dimension to explore and think about, marking the importance of the day.

BBA (2024-2027)

Women's Day Celebration

On 08 March 2025, on the occasion of International Women's Day, the students of Navrang, the cultural club of Don Bosco Institute of Technology, Delhi, organized a heartwarming celebration to express gratitude and appreciation for the women faculty members who inspire us every day.

The event was exclusively dedicated to our teachers, creating a space of joy, laughter, and celebration. The teachers were welcomed with roses as a token of love and respect. Their smiles lit up the room and set a cheerful tone for the rest of the afternoon. To add a fun twist, we organized classic games like musical chair and Bollywood-themed games which had everyone laughing and cheering. The celebration concluded with a beautiful cake-cutting ceremony, symbolizing unity and appreciation. The joy on our teachers' faces made all the efforts worthwhile.

It was a simple yet heartfelt event that strengthened the bond between students and teachers and reminded us all of the incredible power and grace women bring to our lives.

Exploring Innovation at AICTE : A Memorable Visit to the Heart of Ideas

A recent visit to the AICTE (All India Council for Technical Education) lab during the AICTE IDEA LAB Tech Fest 2025 on 07 March 2025 turned out to be an unforgettable experience for me. Accompanied by my teacher and a few classmates, I had the chance to witness some of the most creative and forward-thinking student projects from across India—all under one roof.

The atmosphere at the AICTE lab was nothing short of electrifying. Students from various colleges and universities were presenting their innovations with passion and purpose. From AI-powered tools to sustainable tech solutions, the range of ideas on display was not only impressive but also deeply inspiring.

As a student of Don Bosco Institute of Technology (DBIT), Delhi, affiliated with Guru Gobind Singh Indraprastha University, Dwarka, this visit felt like a window into the future. It wasn't just about tech—it was about the impact technology can have on real-world issues. I saw projects focused on rural development, healthcare, environmental sustainability, and even smart solutions using IoT and machine learning.

What stood out the most was the diversity of thought. Every project was unique—some aimed at solving local problems, others imagined global impact. It was amazing to see how students from different corners of the country were united by their drive to innovate.

Talking to the project teams and hearing about their journey—from ideation to execution—was a learning experience in itself. These weren't just textbook concepts; they were practical, functioning prototypes with a vision behind them.

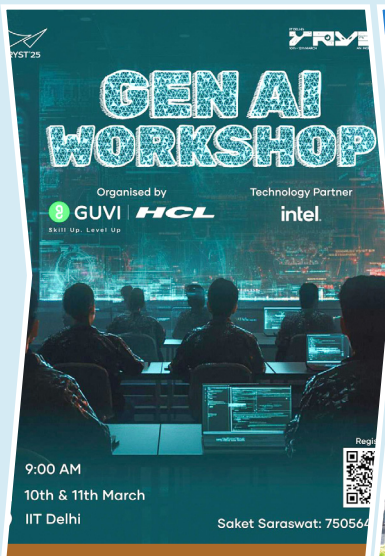

Having my teacher with me made the experience even more insightful. They helped us understand the depth behind the ideas and encouraged us to think about how we could one day build something of our own. It was one of those rare learning moments that happen outside the classroom but stay with you for a long time.

The visit left me feeling motivated and curious. It reminded me that innovation doesn't require a fancy setup—just the right mindset, teamwork, and a willingness to solve problems. I'm thankful to AICTE for providing such a platform where students can showcase their talent and get inspired by others.

Someday, I hope to return not just as a visitor but as a participant, ready to present my idea and be a part of this incredible journey of innovation.

Saad Mehmood
BCA (2022-2025)

Industrial Visit to Times of India

On 10 March 2025, Don Bosco Institute of Technology, Delhi, organized an industrial visit to the Times of India printing press, located in Sahibabad, Ghaziabad, Uttar Pradesh under the supervision of Dr. Ruchi Sawhney, Ms. Tanya Jolly, and Ms. Bhaswatee Das. After reaching the Times of India, students had occasion to introduce themselves. Following that, they were given a detailed explanation of the newspaper. The criteria followed in the newspaper's operations were also shared. It was explained that there are special opportunities for girls, like those who secured 100% in English (Class XII). These girls get a chance to be editors for a day, where they decide which articles get published in the newspaper. Additionally, their articles can also be published if they are selected.

It was also shared that 1,80,000 newspapers are printed every hour. The factory tour showed how newspapers are printed and the different steps of the process.

After the tour was completed, they collected feedback from a few selected students.

Payal
BBA (2023-2026)

International Workshop on IPR, Novelty Analysis and Patent Grant

On 22 March 2025, Don Bosco Institute of Technology, Delhi, in association with Wegrow organised an International Workshop on IPR, Novelty Analysis and Patent Grant. The representative from Wegrow was Mr. Ramesh Panda. An International Workshop on IPR, Novelty Analysis, and Patent Grant is crucial for academicians as it provides them with the knowledge and skills to protect their intellectual property, navigate the patenting process, and ultimately drive innovation. By understanding these concepts, academicians can secure their research outputs, generate revenue, and contribute to the global innovation landscape. To facilitate the same, academicians of more than 20 colleges participated in the workshop, shared and gained insights. The event commenced with the inaugural ceremony, which included the lighting of the lamp and an inaugural address by Rev. Prof. (Dr.) Sajjan M. George, Chairman DBIT, and Prof. (Dr.) Vikas Rao Vadi, Director DBIT. They warmly welcomed all the guests and emphasized the importance of Intellectual Property Rights in safeguarding the ideas and innovations of creators, inventors, and artists. They highlighted how IPR not only protects originality but also fosters creativity, research, and economic growth. All the esteemed guests were then felicitated with a memento. International workshops like these facilitate international collaboration by enabling academicians to understand IPR laws and patenting procedures in different countries and lead to increased opportunities for research exchange, joint projects, and the commercialization of inventions on a global scale. The academicians shared their IPR journey and the latest advancements. Along with teaching and extension activities, an educational institution needs to encourage creativity, research, and provide a conducive environment. A booming research and innovative teaching approach necessitates Intellectual Property Rights (IPR). IPR plays a vital role in providing a competitive edge for an institution. Academic and Research Institutions are mainly concerned with managing projects and research initiatives successfully. The protection of their IP Rights will benefit all stakeholders. Intellectual property refers to the property created and owned by a person through the virtue of human intellect.

The esteemed academicians expressed their views on the topic and their ideas on what can be best done in this regard, and expected timelines by which we can actually achieve things. Post completion of the event, all the attendees were felicitated with mementos. The event ended on a very positive note, with the next proceedings to take place in Mumbai after two months.

Building the Future: Generative AI Explored at IIT Delhi Workshop

The students of BBA, BCA, B.Com (Hons.), and faculty members from Don Bosco Institute of Technology (DBIT), Delhi, visited IIT Delhi to attend the Generative AI workshop, part of The Tryst 2025. The workshop aimed to provide insights into the latest advancements in generative artificial intelligence. The workshop was conducted over two days on 10 & 11 March, covering both theoretical foundations and hands-on practical sessions on AI generative models.

Day 1: Foundation of Generative AI

The workshop kicked off with an introductory session by Dr. Amit Arjun Verma, Senior R&D Manager (GUVI-HCL), and Karthick Thangadurai, and Data Scientist [GUVI-HCL] who underscored the transformative role of AI in modern technology.

The key focus was on the role of Python in AI development, particularly its powerful libraries like Hugging Face Transformers, which simplify the implementation of complex models. Students put theory into practice by writing Python scripts for text processing on Google Colab, gaining first-hand experience in AI-driven automation. To reinforce learning, interactive quizzes tested participants' grasp of AI concepts. The session also covered fine-tuning Large Language Models (LLMs) for custom applications.

Day 2: Advanced Implementation & Deployment

The second day shifted focus to collaborative development and scalable AI solutions. Participants learned the essentials of Git and GitHub, including repository creation and version control—a must-have skill for AI teamwork. The highlight was a deep dive into Retrieval-Augmented Generation (RAG), led by Karthick Thangadurai. Attendees explored how RAG combines retrieval models with generative LLMs to produce accurate, context-aware responses. This knowledge was put to the test as participants built their Q&A chatbot using RAG frameworks. The workshop also addressed deployment and scaling challenges.

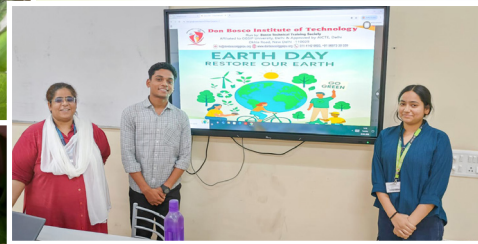

The event wrapped up with closing remarks from Hariprasad Kodamana, Chairperson, Anup Singh, Co-Chairperson and Sumit Singh Overall Coordinator of Tryst'25. Experts encouraged participants to harness generative AI to solve pressing global challenges.

Earth Day Celebration

Nature Hunt Activity at Don Bosco Institute of Technology, Delhi

Every year, Earth Day reminds us of the importance of protecting our environment and celebrating the beauty of nature. This year, on 22 April 2025 our college took a creative step to make Earth Day both educational and engaging by organizing a Nature Hunt Activity on campus. Students had to identify the plants based on the botanical names. Locate the identified plants within the college campus and click photographs of the flowers/plants then present their findings to their respective subject teachers during class.

The activity turned out to be an exciting journey of discovery, as students worked in teams, using observation skills and teamwork to find and learn about the different species of plants around them.

The Nature Hunt not only promoted environmental awareness but also encouraged students to observe and appreciate the green beauty that surrounds them every

day. Many students expressed surprise at the variety of plants present in the college, some of

which they had never noticed before.

This Earth Day activity successfully combined fun, learning, and awareness. It strengthened our connection with nature and reminded us all of the importance of conserving our natural resources. Priyanshu of BCA Batch (2023- 2025) was the winner, and Unnati of BCA Batch (2024-2028) was the runner-up in the Nature Hunt activity held on Earth Day 2025.

The Nature Hunt was a refreshing way to celebrate Earth Day—one that left everyone with a deeper understanding of nature and a strong message:

“The Earth does not belong to us; we belong to the Earth.”

An Industrial Visit to Coca-Cola Moon Beverages Limited, Greater Noida

On 02d May 2025, Don Bosco Institute of Technology organized an Industrial Visit to the Coca Cola Moon Beverages Limited, Greater Noida Bottling Plant, and that was a truly enriching experience. Organized by the Department of Business Administration, the visit gave us a first-hand look into how one of the world's leading beverage brands operates. The faculty members who went on the visit were Dr. Asjad Usmani, Ms. Swati Gupta, Ms. Shailza, and Ms. Tanya Jolly.

We began with an informative session about Coca-Cola's history, marketing strategies, and global presence. It was fascinating to see how the brand maintains consistency across markets while adapting to local preferences. The tour of the plant showcased advanced machinery, quality control systems, and efficient supply chain practices. During the tour, students observed the automated production lines, including processes such as rinsing, filling, capping, labeling, and packaging. The guides also explained how the plant integrates advanced quality control checks at each stage to ensure consistency and safety. What stood out to me most was the focus on sustainability and how Coca-Cola manages its resources responsibly. This visit helped me connect our classroom learning in marketing, operations, and management to real-world applications.

The industrial visit was an eye-opener and a valuable learning experience. It deepened our understanding of business operations and inspired us to think practically and strategically about our future careers in the corporate world.

Eid Celebration at DBIT – 25 March 2025

Although Meethi Eid (Eid al-Fitr) was officially observed on 30 March 2025, Don Bosco Institute of Technology celebrated the joyous occasion in advance on 25 March 2025, embracing the spirit of togetherness, warmth, and cultural harmony.

The celebration was graced by Dr. Vikas Rao Vadi, Dr. Shalu Tandon, Heads of Departments, and faculty members. Extending heartfelt wishes on behalf of the DBIT family, the gathering highlighted the institute's inclusive ethos and respect for all cultures.

Dr. Vikas Rao Vadi addressed the attendees with thoughtful words, emphasizing the significance of shared celebrations in fostering unity, mutual respect, and a sense of belonging within the campus community.

In response, Muslim faculty members shared their reflections-expressing gratitude, recounting their experiences at DBIT, and acknowledging the strong bond they share with the DBIT family.

As a touching gesture, fruit baskets were presented to the Muslim faculty members by the DBIT team-symbols of love, appreciation, and respect.

The event stood as a beautiful reminder of DBIT's continued commitment in celebrating diversity with grace, understanding, and goodwill.

A Visit to Bharat Mandappam & TV 9 Studio – What India Thinks Today

On 28 and 29 March 2025, students of Don Bosco Institute of Technology, Delhi, got an opportunity to visit Bharat Mandappam. Many eminent personalities like Shri Narendra Modi, Prime Minister of India, Shri Nitin Gadkari, Minister of Road Transport and Highways of India, Shri Vijay Deverakonda, Indian Actor and film producer, and Shri Pandit Dhirendra Shastri, Spiritual Guru graced the event and shared their insights on the road to progress and what India as a developed nation will look like by 2047. They also went on to share plans and what they expected out of the citizens of India. It was a great and one-of-a-lifetime experience meeting the esteemed dignitaries and having shared the same thought process.

Citing a report from the IMF, Shri Narendra Modi said that India was the only major economy in the world that had doubled its GDP in the last 10 years. Emphasizing that India had added USD two lakh crore to its economy in the last decade, adding that doubling of the GDP was not just about numbers but had major impacts like moving 25 crore people out of poverty forming a 'Neo-Middle Class'. He further added that the Neo-middle class was beginning a new life with dreams and aspirations along with contributing to the economy and making it vibrant. "India has the world's largest youth population", exclaimed the Prime Minister. The youth were rapidly becoming skilled, to accelerate innovation. "India First has become the mantra of India's foreign policy", highlighted the Prime Minister. He remarked that while India once followed a policy of maintaining equal distance from all nations, the current approach emphasizes being equally close to all—an "Equi-Closeness" policy. The Prime Minister underscored that the global community now values India's opinions, innovations, and efforts like never before. He emphasized that the world is keenly observing India today and is eager to understand "What India Thinks Today."

Prime Minister highlighted that India is not merely participating in the world order but is actively contributing to shaping and securing the future. He remarked on India's vital role in global security, especially during the COVID-19 pandemic. Defying doubts, India developed its vaccines, ensured rapid inoculation, and supplied medicines to over 150 countries, he added. He emphasized that in times of global crisis, India's values of service and compassion resonated worldwide, showcasing the essence of its culture and traditions. It was not just spectators at the venue but across the world people watched and cheered the proceedings.

Exploring the Future : A Session on Artificial Intelligence and the Changing Workplace

On Monday, 31 March 2025, Don Bosco Institute of Technology (DBIT), Delhi auditorium turned into a hub of learning and inspiration as it hosted an eye-opening session titled “How Artificial Intelligence Will Shape the Future of Work, Co-exist with Humans for Better Results”. The event brought together students, faculty, and special guests, all eager to explore the evolving professional landscape shaped by Artificial Intelligence (AI).

The session was thoughtfully organized by Don Bosco Institute of Technology, with active support from The Times of India, which helped to promote the event and added to its credibility by extending media coverage and ensuring a wider reach. Their involvement played a crucial role in attracting attention to the importance of understanding AI's growing influence in the workplace.

The spotlight of the session was on Mr. C.P. Gurnani, ex-CEO of Tech Mahindra a respected leader in the tech industry known for his visionary approach and deep-rooted experience in the IT sector. His insights into the convergence of technology and human potential made him the ideal speaker to address such a future-focused theme.

Joining him on stage was Rev Prof. Sajjan M George, Chairman of DBIT, whose thoughtful and challenging questions sparked meaningful discussions. His academic perspective added great value by bridging the gap between theoretical knowledge and real-world industrial practices.

During the session, Mr. Gurnani walked the audience through his incredible journey in the corporate world, highlighting key decisions and experiences that shaped his career. He spoke passionately about the rapid transformation of work environments, the rise of automation, and the essential role of AI not as a threat, but as a powerful partner that, when used correctly, can enhance human capabilities and drive better results.

The event was refreshingly interactive. Curious students stepped up with questions ranging from career direction to ethical dilemmas in AI. Mr. Gurnani welcomed each question with patience and sincerity, often weaving in stories from his journey to offer grounded, practical advice. His approachable demeanor and honest responses left a lasting impression on everyone present.

The session concluded with a sense of renewed curiosity and motivation among the attendees. Students walked out of the auditorium not just more informed, but also inspired with a clearer vision of how AI and human intelligence can go hand in hand to shape a brighter, more collaborative future.

Atmanirbhar Bharat: The Road to Self-Reliance

India's vision of becoming self-reliant took a major leap forward with the launch of the Atmanirbhar Bharat Abhiyan in May 2020 by Prime Minister Narendra Modi. The initiative was introduced in response to the global disruption caused by the COVID-19 pandemic, which highlighted the need for stronger domestic capabilities in key sectors. To make this possible, Don Bosco Institute of Technology (DBIT), Delhi, organised a Guest lecture on 'The Role of faculty and students in making India Atma Nirbhar Bharat' on 08 April 2025.

The main idea behind this mission is to make India more capable of producing what it needs—whether it's technology, medicines, goods, or services—without depending too much on other countries. It encourages people to support local businesses, use Indian-made products, and create more opportunities within the country.

Atmanirbhar Bharat focuses on five main areas: the economy, infrastructure, modern systems, a strong population, and demand. Various schemes have been launched to support small businesses, farmers, and startups, and to push local manufacturing. The "Vocal for Local" campaign has become a popular part of this movement. The campaign supports various sectors, including manufacturing, agriculture, MSMEs, and startups. Programs like the Production Linked Incentive (PLI) scheme encourage industries to grow locally while remaining competitive globally. The "Vocal for Local" movement has also gained momentum, encouraging citizens to support Indian-made goods and services. This initiative is not about cutting off from the world, but about being strong enough to stand on our own feet and also help others. If every Indian contributes in their own way, India can truly become self-reliant and successful on the global stage.

B.Com (Hons.) (2024-2028)

WORKSHOP ON "RISING CAPITAL AND MANAGING FINANCE"

On April 8, a workshop on the topic "Rising Capital and Managing Finance" was organized with the aim of helping participants understand how to raise funds for their business and manage finances more effectively.

The workshop was attended by students and featured an expert talk by **Mr. Varun Mittal, founder of Skill India Company**. He shared valuable insights into various methods of raising capital, such as securing support from investors or leveraging crowdfunding platforms. He also explained key aspects of financial planning, including budgeting, managing money wisely, and tracking income and expenses.

The session included fun and interactive activities, allowing participants to ask questions, engage in practical exercises related to the topic, and learn through real-life examples.

The event concluded with an open discussion where participants got the opportunity to share their ideas and network with peers.

Overall, it was a highly informative and engaging experience for anyone interested in entrepreneurship or enhancing their financial literacy.

A Visit to India Today for the Lallantop Show

Students from Don Bosco Institute of Technology, Delhi, recently had the opportunity to visit the Lallantop headquarters in Delhi for a memorable and enriching experience. The highlight of the visit was attending a live interview hosted by Mr. Saurabh Dwivedi, featuring celebrated lyricist, actor, and writer Mr. Swanand Kirkire.

The session offered a deep dive into Bollywood, creativity, and the personal journey of Swanand Kirkire. His stories about the entertainment industry, the writing process, and his experiences in film and music brought forward unique insights that resonated with many of us. The interview was not only informative but also reflective, touching upon the evolution of art and culture in modern India.

What made the experience even more special was the guided tour of The Lallantop studio. We got to see the newsroom setup, production areas, and the behind-the-scenes work that goes into creating digital content. For students interested in media, journalism, or even tech, it was a fascinating look into the inner workings of a major media house.

Overall, the visit to the Lallantop was both educational and inspiring. It gave us a first-hand experience of how creative conversations are brought to life in a professional media environment — and left many of us thinking about the power of storytelling in today's digital world.

Splashes of Joy: A Day Trip to WOW Water Park

A Day of Fun, Friendship, and Unforgettable Moments

On 09 April 2025, students of Don Bosco Institute of Technology, Delhi, enjoyed a refreshing break at Worlds of Wonder (WOW) Water Park, Noida. The day-long trip was a perfect escape from academics, designed to rejuvenate minds and strengthen bonds among students.

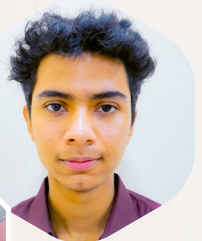

Excitement was in the air as students arrived in groups, eager to dive into fun. WOW's vibrant atmosphere—with splashing water, upbeat music, and thrilling rides—instantly lifted everyone's spirits. Some rushed straight to high-speed slides like Free Fall and Turbo Tunnel, while others relaxed in the wave pool, lazy river, or danced under rain showers.

Beyond the rides, the trip was all about connection. Students across the departments mingled, shared meals, captured memories with endless selfies, and simply enjoyed each other's company. Even faculty joined the fun, adding a sense of camaraderie that made the event feel more like a family day than a formal outing.

The food courts kept the energy high as students refueled and laughed together. As the day drew to a close, the atmosphere mellowed. Group photos were clicked, memories were sealed, and smiles were shared.

More than just a fun day, the WOW trip reminded everyone of the joy in pausing, bonding, and living in the moment. It left students relaxed, connected, and full of gratitude for this unforgettable experience.

Workshop On Resume Writing and LinkedIn Optimisation

On 15 April 2025, Don Bosco Institute of Technology (DBIT), Delhi, organized a workshop on 'resume writing and LinkedIn optimization' for second-year BBA students. The workshop aimed to cater to the needs of the students who are to sit for internship interviews and decide on specializations in their academic journey. Resume writing training is not merely about creating a document, but a catalyst for professional development. It fosters self-reflection on career paths, identifies growth areas, and inspires ambitious future goals within the job market.

To felicitate the same founders of Peculiex.com, Mr. Ayush and Mr. Sagar came to campus and addressed the students. Not only did they show the use of ChatGPT, but also how AI can increase the chances of the CVs of the students to be selected. The students showed their existing resumes, and the speakers helped them understand the mistakes and ways to make the resumes more impressive.

The session concluded with a Q & A session and with a promise from the founders to replicate the activity for BCA and B. Com (Hons.) students as well.

BBA (2024-2028)

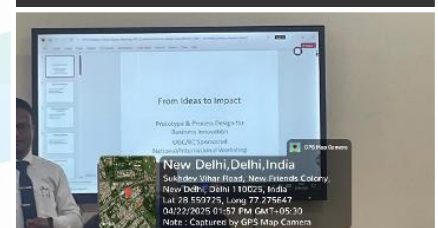

Prototype/Process Design and Development

A session was organised on Prototype/Process Design and Development for BCOM IV Semester students on 22 April 2025. The speaker for the session was Dr. Md Osim Aquatar, Founder Director, CEO & Chief Research & Innovation Scientist, GREATA Research & Innovation Pvt. Ltd. The session aimed to introduce the fundamental concepts of prototype and process design, familiarize participants with tools and technologies used in prototyping, highlight the importance of iterative development and user-centered design, provide exposure to process optimization strategies in manufacturing and encourage innovation and problem-solving through hands-on activities.

The session was a success in terms of its aim at equipping participants with the knowledge and practical skills required in the early stages of product development. The workshop brought together students, faculty, and industry professionals to learn and engage with modern prototyping and process optimization techniques. It not only provided insights into the conceptual and technical aspects of prototyping but also emphasized the importance of efficient process design in product development.

EMPOWERING YOUNG MINDS:

A National Confluence of Innovation, Business, and Sustainability at DBIT

The IV National Conference on “Empowering Young Minds: Bridging Technology, Business, and Innovation for a Sustainable Future” commenced with great enthusiasm and academic vigor on Friday, 25 April 2025, at Don Bosco Institute of Technology (DBIT), Delhi. The event marked a significant convergence of youth, intellect, and innovation, reaffirming the Institute’s commitment to nurturing future-ready professionals.

The inaugural ceremony began at 10:30 AM, with the traditional lighting of the lamp, symbolizing the dispelling of ignorance through the light of knowledge. The ceremony was anchored with grace and poise by Ms. Tanya Jolly (Assistant Professor) and Ms. Priyanka Mavi (Assistant Professor)

Delivering the welcome address, Rev. Prof. (Dr.) Sajan M. George, Chairman of DBIT and Patron-in-Chief of the Conference, inspired the gathering with his powerful message on the critical role of youth in shaping a technologically empowered and socially responsible future. He urged participants to move beyond their comfort zones and believe in their potential to bring about meaningful transformation.

This was followed by the inaugural address by Prof. (Dr.) Vikas Rao Vadi, Director of DBIT and Conference Patron, highlighted the crucial interplay between technology and business in today’s digital economy. He emphasized that technological advancement must go hand-in-hand with social responsibility, fostering inclusive growth and impactful collaboration.

The keynote lecture was delivered by Dr. A.K. Mahapatra, Professor and Head of the IT Department at IGDTUW. His session invigorated the audience with critical insights into the entrepreneurial mindset, the intersection of innovation and sustainability, and the need for mission-driven problem-solving in the era of Industry 4.0. Sharing vivid startup case studies, he highlighted the importance of aligning technology with human-centric challenges.

Dr. Shudhash Sharma, Assistant Professor from the School of Computer Sciences at IGNOU and Guest of Honor, expanded the dialogue by addressing emerging opportunities at the crossroads of business and technology. He emphasized the increasing societal impact of technological evolution and the rising relevance of prompt engineering in AI systems.

A key moment of the ceremony was the release of the Conference Proceedings, jointly officiated by Rev. Prof. (Dr.) Sajan M. George, Prof. (Dr.) Vikas Rao Vadi, Dr. A.K. Mahapatra, Dr. Shudhash Sharma, and Dr. Shalu Tandon, symbolizing the formal launch of academic deliberations.

The inaugural session concluded with a heartfelt vote of thanks, paving the way for a day of intellectually stimulating technical sessions and poster presentations. The conference effectively established an academic framework emphasizing youth empowerment, technology-business synergy, and sustainability-driven innovation.

Highlights from Poster Presentations and Technical Sessions

A panel comprising Ms. Charanpreet Kaur (Associate Professor) and Mr. H.M. Jain (Associate Professor) evaluated posters on content quality, creativity, clarity, and potential impact. The Best Poster Presentation Award was conferred upon Diksha Sharma and Om Rawat from the BCA Department (Batch 2022-2025) for their outstanding visual and conceptual work.

Technical Session I – Information Technology

Focused on emerging trends in IT such as fake news detection, data analytics, cybersecurity, and cloud computing, this session showcased innovative student research. Sahiljeet Singh Kalsi and Sambhav Chugh from the BCA Department (Batch 2022-2025) were awarded Best Paper Presentation for their insightful study, “Application and Benefits of Artificial Intelligence in Mental Health.” Session Chaired by Dr. Santosh Kumar Singh (Associate Professor), Dr. Vijayeta Chauhan (Associate Professor) and Ms. Poonam (Assistant Professor)

Technical Session II – Artificial Intelligence and Data Science

Chaired by Dr. Varun Tiwari (Associate Professor) and Dr. Ruchi Sawhney (Associate Professor), this session featured thought-provoking discussions. Aakanksh Chandra and Chirag Sharma BCA Department (Batch 2022-2025) received the Best Paper Award for their comparative analysis titled “Deep Learning-Based Sentiment Analysis of YouTube Comments.”

Technical Session III – Commerce and Consumer Behavior

With Dr. P.K. Nayak (Associate Professor), Ms. Shailza (Assistant Professor), and Mr. Deepak Kumar (Assistant Professor) guiding the session, B.Com (Hons.) (Batch 2022-2025) students presented consumer and e-commerce research. Ameesha Pal, Yaqub, and Akash Pandey B won Best Paper for their paper titled “A Study on Online Shopping with Reference to Flipkart.”

Technical Session IV – Sustainable Business Practices

BBA final-year students explored themes around sustainability and youth leadership. After a detailed discussion, Sanvi Gupta, Anika Vijay, and Kriti Kant Pandey BBA Department (Batch 2022-2025) were recognized with the Best Paper Award for “Sustainable Disruptors: The Challenges and Contributions of Youth in the Green Economy.” The Session chaired by Dr. Asjad Usmani (Associate Professor), Mr. Nabil Ahmed Afifi (Assistant Professor), Ms. Kanishka Jindal (Assistant Professor).

Technical Session V – Global Business Strategy

Chaired by the esteemed Mr. G.P. Singh (Professor), with Mr. Tilakdeb Mukherjee (Assistant Professor) and Ms. Nagma Abidin (Assistant Professor) as Co-Chairs, this session examined evolving global strategies. Neha Kumari, Shaba Naaz, and Sahanaj Parvin Pandey BBA Department (Batch 2022-2025) received accolades for their paper, “Redefining Global Business: Strategies for a Dynamic and Sustainable Future.”

The conference served as a vibrant platform for intellectual exchange, interdisciplinary learning, and collaborative exploration, successfully igniting the spirit of inquiry among young scholars. Through technical paper presentations, poster displays, and dynamic panel interactions, the event emphasized critical thinking, ethical innovation, and sustainable solutions. As it concluded, the conference left participants enriched, inspired, and empowered to lead in an era defined by transformation and responsibility.

Associate Professor

An Industrial Visit to Mother Dairy

On 23 and 24 April 2025, students of BBA and B. Com (Hons.) second semester of DBIT, went to Mother Dairy plant in Patparganj. The students were briefed about how the idea of starting Mother Dairy clicked. A video about the modus operandi was displayed and all the students got a great factory tour where we had wonderful insights into the production like it emphasizes systematic in-house training programs for plant staff, ensuring consistent quality and adherence to safety standards and operational facilities that how they aggregate milk from farmer cooperatives under NDDDB governance—ensuring fair pricing and strong farmer ties.

Industrial visits offer students invaluable practical experience and industry exposure, bridging the gap between theoretical knowledge and real-world applications. They provide insights into business operations, technological advancements, and potential career paths, ultimately enhancing employability and fostering holistic development.

The visit was followed by the students being served some amazing ice creams and flavored milk. The day ended on a very happy note after getting access to practical knowledge and hands-on industry exposure.

Empowering Ethical and Responsible Advertising: Joint Mega FDP by IIMC and ASCI

On 04 July 2025 (Friday), the Indian Institute of Mass Communication (IIMC), in collaboration with the Advertising Standards Council of India (ASCI), organized a Joint Mega Faculty Development Programme (FDP) on Empowering Ethical and Responsible Advertising. Dr. P. K. Nayak (HoD Commerce Dept.), Ms. Richa Sachdeva (Assistant Professor), Ms. Anurupa Ganguly (Assistant Professor) and Mr. Nabil Ahmad Afifi (Assistant Professor) from Don Bosco Institute of Technology (DBIT) attended the event, gaining key insights into advertising ethics and self-regulation.

The programme began with an inaugural session graced by Shri. C.S. Rajan, Joint Secretary, MIB, who emphasized the need for regular training on Advertising Codes for future content creators. Dr. Anupama Bhatnagar, VC, IIMC, highlighted the importance of integrating ethical advertising into academic curricula. Ms. Manisha Kapoor, CEO & Secretary General, ASCI, shared insights on self-regulation in advertising, while Mr. Chandan Mukherji, Director, Nestlé India, discussed the principles of responsible communication.

Further sessions featured Dr. Saheli Sinha, Director-Operations, ASCI, who explained the role of self-regulation in modern advertising, and Ms. Namrata Bachani, Director, ASCI Academy, who stressed the importance of trust-building in ads. The valedictory address by Dr. Nimish Rustagi, Registrar, IIMC, reinforced the significance of ethical advertising in the digital age, safeguarding consumer interests.

The FDP served as a valuable platform for educators and industry experts to collaborate in shaping responsible advertising practices for future professionals.

Mr. Nabil Ahmad Afifi
Assistant Professor

Leading with Purpose: Highlights from Sankalp, Rotaract Club

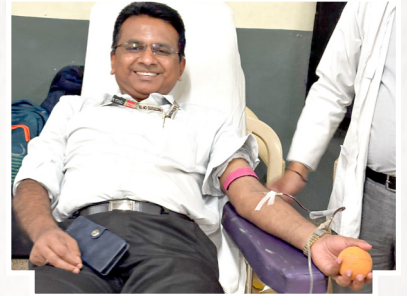

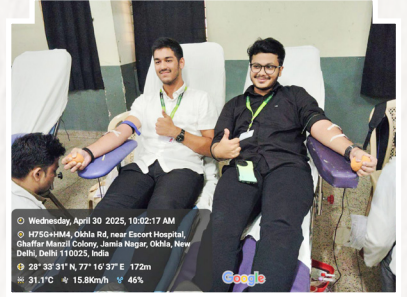

Sankalp – The Rotaract Club of Don Bosco Institute of Technology (DBIT), Delhi, sponsored by Rotary Club of Indraprastha, Okhla, Rotary International District 3011, focus on community service, professional development, and leadership training. Focus on community service, professional development, and leadership training. Through organizing social impact projects, awareness drives, and volunteering activities, members contribute to causes like education, healthcare, environmental sustainability, and social equality. Simultaneously, Rotaract provides members with valuable opportunities to develop essential skills through practical leadership experiences, professional networking, and cross-cultural engagement. DBIT recently witnessed a strong wave of student-driven social responsibility and leadership.

On 10 February 2025, an awareness session on stem cells was conducted in collaboration with DKMS-BMST, where students were educated on the importance of stem cell donation in treating blood cancer, thalassemia and other life-threatening diseases. The powerful presentation led to an inspiring number of student registrations as potential donors.

On 17th February 2025, the Sankalp Rotaract Club of DBIT proudly presented the impactful projects we have undertaken for community betterment. We showcased our work across nine key areas, including women empowerment, health and wellness, gender equality, financial and adult literacy, girl child education, and organ donation. As part of the event, we conducted engaging presentations and a *nukkad natak* to raise awareness on these critical issues. The entire program was held on the same day to highlight our collective efforts and commitment. Through these initiatives, we continue striving toward a more informed, equal, and empowered society.

Adding to the momentum, the Rotaract Club of DBIT organized a successful **Blood Donation Camp on 30th April 2025**, which witnessed enthusiastic participation from 130 students and faculty members. The event was smoothly conducted with the support of 10 dedicated volunteers and certified medical teams, ensuring a safe and hygienic environment for all. A total of **88 units of blood were donated**, marking a heartfelt and life-saving contribution to the community. This initiative reflects our club's ongoing commitment to health, service, and social responsibility.

BCA (2024-2028)

ATISARGA'25

The farewell event ATISARGA'25, conducted on 08 May 2025 at Vivanta, Dwarka 21, New Delhi, was a grand and emotional event arranged by Don Bosco Institute of Technology (DBIT), Delhi, to say goodbye to the graduating Bosconians of 2022–2025 of BBA, BCA, and B.Com (Hons.) courses. The event was carefully organized under the supervision of our Vice Principal Dr. Shalu Tandon and culturally arranged by Dr. Ruchi Sawhney (Cultural Head), with a motive to celebrate success, develop emotional resilience, and give students a head start to the next level of their lives. 550 students were the recipients of this wonderful event, held from 10:00 AM to 5:00 PM. The gathering of honorable guests added to the stature of the day, such as Chief Guest Mr. S. Raja Iqbal Singh, the Mayor of Delhi, along with Guests of Honour Dr. Paramjeet Singh Rana (Ex-Chairman, Delhi MCD Law Committee), Mr. S. Tarandeep Singh Ghai (President, Gurudwara Sri Guru Singh Sabha Moti Pahari), Mr. Sumit Kapoor (Director, Tech Access Learning Pvt Ltd), Mr. Rahul Kumar (Director, Higher Education), Ms. Laxmi Panwar (Director, Higher Education), Mr. Deepak Tandon (Founder & Director, ISL Competitive Centre). Their motivational speeches emphasized the role of persistence, moral leadership, and social responsibility in corporate life.

The ceremony started with the ceremonial lamp lighting, representing knowledge and new beginnings, and was followed by a highly emotive Adieu Message delivered by Prof. (Dr.) Sajan M. George, Chairman of DBIT. In his message, he exhorted the students to pursue excellence with a sense of roots in social values. Prof. (Dr.) Vikas Rao Vadi, Director of DBIT, welcomed the group with a Salutary Oration, laying a strong focus on ethics and leadership for all future undertakings. The attendance of other top-of-the-line faculty members, such as Dr. Asjad Usmani (HOD, Management), Dr. P. K. Nayak (HOD, Commerce), and Mr. Amandeep Singh Arora (HOD, CS&IT), contributed to further richness and warmth in the celebration. The most eagerly awaited portion of the event was the Ramp Walk, wherein some of the most prestigious titles were awarded to the students. Ms. Srishti Rai and Mr. Aakanksh Chandra were selected as Ms. and Mr. BTTS, whereas Ms. Anushka Sharma and Mr. Yermaih James were announced as Ms. and Mr. DBIT. Ms. and Mr. Fashionista awards were given to Ms. Kirpa Bajaj and Mr. Deepanshu Nagar, and Ms. and Mr. Brand Ambassador awards were conferred on Ms. Iqra Ansari and Mr. Yatharth Chauhan, respectively.

The morning continued with colorful cultural performances, exhibiting students' creativity, talent, and collaboration developed throughout their studies. A special video montage capturing memories of their three-year stint at DBIT made many go teary-eyed in nostalgia. The event did not lose steam with a high-powered DJ session where the students and teachers danced together as one. There was a cake-cutting ceremony and a luxurious lunch banquet afterward, all cementing a sense of togetherness and camaraderie. Mr. Amandeep Singh Arora hosted the program with outstanding charm and impromptu personality, holding the audience glued and emotionally involved throughout. The ceremony ended with a sincere Vote of Thanks proposed by Dr. Ruchi Sawhney, who recognized the effort of the organizing team, the efforts of the dignitaries, and the energy of the students that made the farewell event a huge success.

ATISARGA'25 was not just a farewell but a tribute to the dreams, efforts, and spirit of DBIT's inaugural graduating class. It reflected the values of professionalism, cultural diversity, emotional intelligence, and ethical leadership imbibed by the institution in its students. As the graduates move to the world outside after their college life, they take along with them not just book knowledge but also memories and values that will guide them in life from now on. The farewell was the commencement of a new phase, with hope, responsibility, and a vow for excellence, making ATISARGA'25 a memorable page in the history of Don Bosco Institute of Technology, Delhi.

"Capacity Building in Higher Education Institutions (HEI): Challenges and Opportunities"

As we draw the curtains on the intellectually stimulating and thought-provoking five-day Faculty Development Programme (FDP) on "Capacity Building in Higher Education Institutions (HEI): Challenges and Opportunities", held from 14 - 18 July 2025 and organised by Don Bosco Institute of Technology (DBIT), Delhi, it is with immense pride and gratitude that we reflect on this impactful initiative. To ensure maximum participation and accessibility, the FDP was conducted in the online mode, enabling faculty members from institutions across the country to join and benefit from the enriching sessions.

This transformative journey brought together visionary educators, distinguished academicians, and enthusiastic faculty members in a series of meaningful discussions aimed at strengthening institutional capabilities in alignment with the National Education Policy (NEP) 2020.

In a gesture of unwavering support toward the faculty fraternity, our institution proudly took the initiative to organize this FDP completely free of cost for all attendees. The programme received an overwhelming response, with 660 participants registering, and featured ten dynamic sessions, each meticulously designed to explore and address the evolving needs and challenges of higher education institutions.

The programme commenced with an inspiring inauguration session, during which Rev. Prof. Sajjan M. George warmly welcomed all participants and set an enthusiastic and engaging tone for the days ahead. He emphasized the need for capacity-building initiatives to bridge gaps in institutional performance and to cultivate leadership, innovation, and inclusivity in academia. His address encouraged attendees to approach the sessions with open minds and a collaborative spirit.

Following this, Prof. Vikas Rao Vadi delivered a compelling motivational address, highlighting the crucial role of faculty in driving academic transformation. He stressed the importance of adaptability, self-renewal, and cross-institutional learning in the rapidly evolving landscape of higher education. His words catalyzed reflection and action,

Day 1: Laying the Foundation

The inaugural session, "Conceptual Overview, National Context, NEP 2020 Lens" by Prof. (Dr.) Subodh Kesharwani, set the tone for the week. He brilliantly analyzed the shifts in educational policy, highlighting institutional autonomy and strategic foresight essential for a future-ready academic landscape.

Following this, Prof. (Dr.) Mansaf Alam conducted an interactive and reflective session on "Institutional Needs vs. Capabilities: HR, Infra, and Digital Readiness". He emphasized the urgency of bridging institutional gaps through data-driven approaches, aligning resources and planning with NEP objectives.

Day 2: Pedagogical Innovation and Institutional Reflection

The third session introduced us to "Story-Telling Pedagogy for Conceptual Clarity and Enabling Social Outcomes in Research" by Prof. (Dr.) Bindiya Soni and Prof. (Dr.) Jigna Trivedi. Their session underlined the power of storytelling in making complex concepts relatable and enhancing research relevance in social contexts.

In the fourth session, Prof. (Dr.) Shubhi Lall Agarwal led a deep dive into "Mapping Local Institutional Challenges." Participants were encouraged to identify and articulate their institutional constraints, promoting self-awareness and practical goal setting to align with their institute's vision.

Day 3: Reform, Digital Empowerment, and Strategic Vision

The fifth session, led by Dr. Harshita Tuli, focused on "NEP 2020 and Strategic Reforms," offering a comprehensive look at academic flexibility, accreditation reforms, and aligning higher education standards with global benchmarks.

In session six, Dr. Susheela Hooda provided a hands-on experience on digital empowerment through tools like MOOCs, LMS platforms, and content development strategies using Coursera and Google Classroom. Her session was a valuable guide to leveraging technology in teaching and learning.

Day 4: Leadership, Mentorship, and Institutional Growth

Day four opened with Prof. Shweta Batra's session on "Empowering Faculty and Staff." Her session emphasized structured professional development, mentorship, and fostering a culture of continuous learning as pillars for institutional success.

Later, Prof. (Dr.) Sharad Kumar Shah brought an engaging session on "Leadership Challenges in HEIs." He offered deep insights into motivation-based leadership and effective change management, supported by real-life examples and interactive discussions.

Day 5: Sustainability, Planning, and Action

The penultimate session, "Building Institutional Resilience," was delivered by Prof. (Dr.) Bala Lakendra. He highlighted the significance of long-term planning, setting measurable KPIs, and establishing innovation hubs to drive adaptability and sustainable growth in HEIs.

The programme concluded with Prof. (Dr.) Jishnu's session on "Drafting an Action Plan." Participants collaboratively presented capacity-building blueprints for their institutions, focusing on practical implementation of NEP-aligned strategies with clear timelines and priorities.

This FDP was more than a series of lectures—it was a collaborative platform for dialogue, reflection, and strategic planning. It empowered faculty with new pedagogical tools, administrative strategies, and leadership insights, all aligned with the future of Indian higher education.

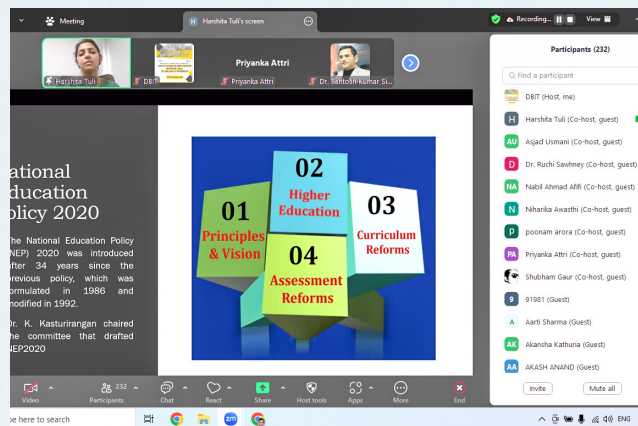

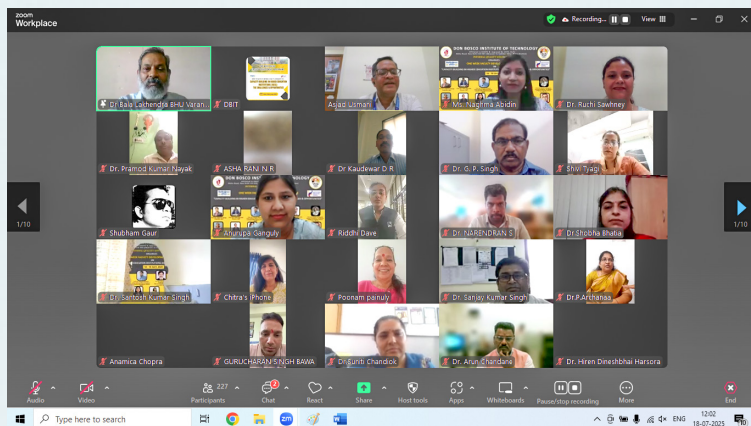

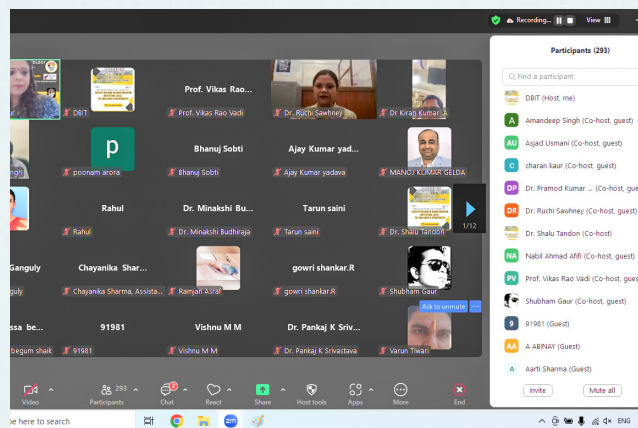

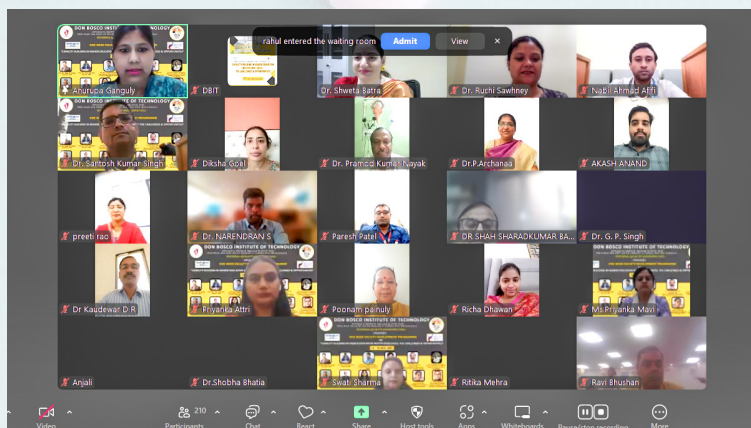

We extend our heartfelt thanks to all the distinguished resource persons for their invaluable contributions. Their expertise and mentorship have truly enriched this programme.

Let us now carry this learning forward and actively implement the ideas explored during this FDP, thereby transforming our institutions into engines of innovation, equity, and excellence.

"The future belongs to those who prepare for it today."

Dr. Ruchi Sawhney
Associate Professor, DBIT

PLANTATION DRIVE JULY 2025

A Plantation Drive was successfully organized in Don Bosco Institute of Technology (DBIT), Delhi, campus on 11 July 2025, marking a significant step towards promoting environmental awareness and sustainable living among students. The event was graced by the presence of Prof. Sajjan M. George, Chairman, DBIT, and Prof. Vikas Rao Vadi, Director, DBIT, and they both shared their valuable insights through inspiring speeches.

Prof. Sajjan M. George addressed the gathering and spoke about the spiritual and moral responsibility we all share in nurturing the Earth. His speech deeply motivated everyone present to treat trees and plants with care and respect. Prof. Vikas Rao Vadi emphasized the urgent need to protect our environment and encouraged students to take small but consistent steps toward greener living. He highlighted the role of youth in combating climate change and preserving nature for future generations.

As part of the drive, around 70 saplings of various species were planted across the college campus. These 70 saplings were provided by the Forest Department of Delhi. Students, faculty members, and staff actively participated in digging, planting, and watering the saplings. The atmosphere was filled with enthusiasm and teamwork, as everyone worked together with a shared purpose of making the campus greener and healthier.

The drive served as a practical learning experience for students. It helped them understand the ecological benefits of trees, such as reducing carbon dioxide levels, preventing soil erosion, conserving water, and providing habitat for wildlife. Students learned how individual contributions, when combined, can lead to meaningful change.

Such events are a reminder that

“Planting a tree today is a promise for a better tomorrow”.

B.Com (Hons) (2024-2027)

Student Messages By Batch 2022 - 25

A Chapter Full of Memories: My College Journey

As I pen this, emotions flood my heart — gratitude, nostalgia, joy, and a hint of sadness. It's hard to believe college life is coming to an end. What once felt overwhelming has now become a cherished part of me.

I entered this college unsure and hesitant. As the time moved on, unfamiliar faces turned into close friends, classrooms into safe spaces, and teachers into guiding lights. This campus stopped being just an institution — it became my home.

The friendship I built became my backbone. Whether it was tackling assignments, spontaneous photoshoots, or endless laughter in the canteen — every moment with my friends is etched in gold. Thank you for being my biggest support.

To our faculty: you were more than teachers. You inspired, mentored, and believed in us when we doubted ourselves. Your lessons will stay far beyond the classroom walls.

College wasn't just about academics. It was about transformation. I found courage, resilience, and a voice. From hesitating to participate to confidently organizing events — I found growth.

As we say goodbye, my heart is full. To juniors — live every moment. To teachers — thank you for shaping us. To friends — you're always with me.

Though we move ahead, a part of me will always whisper — this was home.

Sneha Madan

BBA (2022-2025)

From First Day Jitters to Final Day Pride – My DBIT Journey

Three years ago, I stepped into Don Bosco Institute of Technology (DBIT), Delhi, with dreams in my eyes and a deep curiosity for technology. That first day, I was nervous but excited — I didn't know then that this place would become so much more than just a college. It became my second home.

Right from the first semester, when I scored top marks, the encouragement from my faculty pushed me forward. Their constant support, approachable nature, and belief in me gave me the confidence to aim higher. That support meant a lot, and it kept me motivated to do my best.

Through consistent effort and dedication, I achieved something I once only hoped for — Rank 1 in BCA across GGSIPU and the title of DBIT BCA topper. I was also awarded scholarships that made me feel seen and appreciated for my hard work.

But DBIT was never just about classes and exams. I made friendships that turned into family. Whether it was group studies, late-night assignment marathons, or enjoying college fests like ITrang, every experience added something special to my journey.

Looking back now, I feel nothing but gratitude — for the teachers who guided me, the friends who were always there, and the institute that helped me grow. DBIT isn't just a name on my degree; it's a part of who I am.

Thank you, DBIT, for everything.

Saad Mehmood
BCA (2022-2025)

JOURNEY AS A BOSCONIAN

When I entered Don Bosco Institute of Technology (DBIT), Delhi, I had no certificates or achievements to my name. But everything changed because of the constant guidance and motivation from my teachers. They believed in me and encouraged me to participate in every opportunity that came on my way. I proudly served as the Academic Representative of B.Com (Hons.), worked as a Volunteer Coordinator in the Kabaddi

Tournament, participated in Football Tournament, helped to organize the Annual Cultural Fest, and earned a participation certificate in Research. Each experience helped me to grow. I am truly grateful to my teachers for shaping my journey and always inspiring me to become better.

Rahul Singh Rawat
B.Com (Hons.) (2022- 2025)

THREE YEARS, A STORY, AND A LIFETIME OF MEMORIES – MY COLLEGE EXPERIENCE AT DON BOSCO INSTITUTE OF TECHNOLOGY, DELHI

Pursuing BBA at Don Bosco Institute of Technology (DBIT), Delhi, was an academically enriching and professionally rewarding journey. The curriculum was well-structured with a blend of theoretical knowledge and practical applications. The campus and its vibrant environment made learning enjoyable. I made lifelong friends and valuable professional connections. The faculty played a pivotal role by offering constant mentorship and always encouraging us to think beyond regular textbooks. With their regular guidance and counselling, college life became much easier. Regular workshops, industry interactions, and placement training sessions—led by faculty and professionals—prepared me for real-world challenges. Extra-curricular activities helped boost confidence and leadership skills. All these were instrumental in helping me to secure a job in R1 RCM (R1 RCM Management Services Company) post completion of my degree. Overall, my time at Don Bosco Institute of Technology was more than just education — it was a journey of growth, grit, guidance, and self-development. DBIT gave my dreams direction and turned my potential into purpose.

Prerna Ravi
BBA (2022-2025)

Our Placement Cell

The Training and Placement Cell at DBIT plays a pivotal role in building connections between students and the industry. The cell facilitates end-to-end placement support — with leading recruiters across domains. Supporting this mission is a dedicated team of student coordinators (2022-2025) who serve as the backbone of placement activities.

Placement Distribution by Sector

Our placement statistics speak volumes about the strength and industry-aligned nature of our academic programs. The chart below is a testament to the dynamic and multidimensional career pathways our students have ventured into, carving successful trajectories across a spectrum of high-impact industries.

- **Sales & Business Development** – Dominating the distribution, this sector highlights our students' exceptional persuasion, negotiation, and interpersonal skills. Their ability to drive business growth and foster lasting client relationships makes them a natural fit for these fast-paced, goal-oriented roles.
- **IT & Technical Support** – With a significant portion of placements, this sector reflects the robust technical foundation and problem-solving prowess of our graduates. They are powering the digital backbone of organizations through roles in tech support, systems management, and IT services.
- **Analytics & Finance** – Our students are thriving in data-driven decision-making roles, showcasing mastery in statistical reasoning, financial acumen, and business intelligence. This sector underscores their capability to turn numbers into strategic insights.
- **Human Resources** – From talent acquisition to employee engagement and operations, our students are making their mark in the people-centric world of HR. Their strong understanding of organizational behavior and empathy equips them to build positive workplace cultures.
- **Banking & Commercial** – This sector highlights placements in both frontline and backend financial roles. With keen attention to detail, customer handling finesse, and a strong grasp of financial operations, our graduates are contributing to the core of the banking ecosystem.

Together, these sectors illustrate the broad professional versatility of our students and validate the industry-readiness and holistic development imparted by our programs.

Don Bosco Institute of Technology – Monumental Placement Season 2025

Don Bosco Institute of Technology has once again exceeded expectations with an extraordinary Placement Season 2025, setting new benchmarks in **academic excellence, professional readiness, and industry engagement**. This season wasn't just successful, it was transformational, firmly establishing **DBIT as a launchpad for elite, future-ready talent**.

The year witnessed a record-breaking wave of recruitment, with **industry giants, global tech leaders, Big Four consulting firms, and disruptive start-ups all competing to recruit the best and brightest from DBIT**. These top-tier companies recognized and responded to the unparalleled professional caliber of our students.

Over 180 prestigious job offers were rolled out across our flagship programs BBA, BCA, and B.COM (Hons.), spanning high-impact verticals, including:

- **Business Development** – Ideal for Future leaders, negotiators, and strategic thinkers
- **Information Technology & Technical Support** – For tech-savvy problem solvers who keep systems running smoothly
- **Finance & Analytics** – Targeting data-driven minds ready to shape strategic business decisions
- **Marketing & Human Resources** – For creative communicators and empathetic organizational champions.
